

NOTICE WATER AND SEWER FEES

In February 2017, the North Springs Improvement District adopted Resolution 2017-04 amending the rates, which lifted the cap on the water and sewer portion of your utility bill. Previously, customers were charged \$2.35 per thousand gallons of usage. However, when the usage exceeded 9,875 gallons, there was no charge. As part of the Interlocal Agreement between Broward County and North Springs Improvement District, the District sends all of its wastewater to the County and is charged for treatment and transmission for all wastewater sent. Thus, it is necessary pass this cost on to the consumer.

Please contact our Customer Service Department at (954) 752-0400 for additional information. Thank you.
